

Class ANALYSIS AND REPORTING: STATISTICAL ANALYSIS PLAN

**Systems of Interest:
Draft Statistical Analysis Plan**

Draft Statistical Analysis Plan

Trigger

Objectives, Endpoints and Estimands have been defined for a study.

Primary Scenario

The System combines digital study design elements from a USDM-compliant Information Stream with analysis concepts from the Analysis Concept Repository and configures them for a study. The analysis concepts are used to generate the initial eSAP (electronic Statistical Analysis Plan) draft.

Result

The eSAP is drafted and reviewed by the Statistician.
